

Seal in Freshness and Safety

New!

- Reduces handling, extends product freshness and protects from cross-contamination.
- Reduces spills during transport.
- Translucent material allows for product identification without removing the cover.
- Polypropylene material is safe from -40°F to 160°F (-40°C to 70°C), making it ideal for use in coolers and freezers.

An Economical Choice for Food Storage

Designed exclusively to fit Camwear® Polycarbonate Food Pans, our new Seal Covers feature an inner seal that provides superior spill resistance. The tight fit reduces spills during transport, reducing waste and improving food safety. Translucence provides adequate visibility to ease inventory identification.

High chemical resistance.
