E35/2 Double Stacked

Units shall be Moffat electrically heated Turbofan convection ovens double stacked on a specially designed stacking kit, E.T.L listed (UL Std 197, NSF-4). Each oven shall have a one piece vitreous porcelain enamel oven liner, stainless steel exterior, twin pane field reversible full view glass door with ventilation top and bottom, with the outer panel hinged for cleaning. A two speed auto reversing fan shall evenly circulate air internally. Heating shall be accomplished via electric elements surrounding the fan. The oven shall be controlled by a solid state thermostat accurate to $\pm 2^{\circ}\text{F}$, range 150°F to 550°F , have a 60 minute bake timer, push button steam injection system, fan speed control and oven vent control. Each oven shall be able to be bench mounted on 4" legs or on Moffat's A26 stand or E85-HLD Proofer and Holding Cabinet, rated for zero clearance left and rear.

CONSTRUCTION

Tops and sides stainless steel
Porcelain oven interior
Stay cool twin pane glass door
(outer surface)
163°F when oven operating at 356°F
Interlocking door handle
Stainless steel oven racking system with
runners for wire racks or full size sheet pan
Insulated all round for zero clearance
left side and rear
Porcelain control panel
Field reversible door

CONTROLS

Electronic thermostat, variable from
150°F to 550°F ± 2°F
1 hour bake timer with buzzers
Timed water injected steam
2 speed fan (700rpm-1400rpm)
On/off switch
Hot reversing air system
High limit safety

CLEANING AND SERVICING

Access to all parts from the front and right
side of the unit
Easy clean surfaces
Fully removable oven racking system
Doors outer glass hinged for cleaning access

OPTIONS

Fully insulated stainless steel door with twin
pane glass viewing window
A26 stand for single unit
E85-A-8-HLD or E85-A-12-HLD Proofer
and Holding Cabinet
Sheet pan, wire rack
Specialist side racks for cookies
