

TWIN EAGLES, INC.

Defining the Art of Outdoor Cooking

New Salamangrill®

World's first top-fired infrared grill for the home

Previously exclusive only to commercial kitchens

If you want to cook like a professional chef, then Salamangrill® is your answer. It is now available for residential use.

Cooks a variety of food at 3 times faster than conventional grills

A 15,000 BTU infrared burner is mounted at the top of the cooking grate to provide instant, intense and constant heat. No more clogged burners and grease flare-ups.

Seals the juices and enhances the taste

Juices are pulled to the top surface of the meat while being seared and cooked.

Lightweight and space saver

The unit is only 70 pounds and measures 24" (L) X 17" (W) X 17" (H)

Safe to use and easy to clean

The multi-position cooking rack rolls in and out for easy loading and unloading of food. The lever and control knob are heat resistant.

Available in Liquid Propane or Natural Gas

Steak

Poultry

Veggies

Pizza
